## WORKING EXPERIENCE

### PHP DEVELOPER (CURRENTLY ON SENIOR POSITION)

Nocowanie.pl | 2017 - Present

- Mostly enterprise-grade coding in very specific product domain

#### Some interesting stuff which I also did:

- Integrated symfony event dispatcher component using psr-14 standard into legacy application
- Built bug tracker application which uses JIRA API (user send a message about bug and simultaneously ticket is creating in jira system)
- Developed RestAPI for nocowanie.pl mobile application from zero - <https://apps.apple.com/pl/app/nocowanie-pl-panel-objektu/id1445687121>

#### Technologies and tools I'm using on everyday basis:

docker, git, gitlab ci/cd, phpunit, phpstan, api-platform, grumphp, sentry, jaeger(not drink but tracing)

### JUNIOR PHP DEVELOPER

Netkata (currently Frontkom) | 2016 - 2017

- working on "work time-tracker" (Laravel + Jira API)
- doing some outsourcing small tasks on different frameworks and cms like: drupal, wordpress, kohana, laravel and symfony

### FRONTEND DEVELOPER

| 2014 - 2016

Industi sp z o.o.

- Mostly html/css, psd to html, psd to wordpress theme coding
